

MINIMIZING COVID-19 EXPOSURE

and social distancing in veterinary practice

Questions regarding delaying vaccines for rabies should be addressed with local authorities. Consultation with [state](#) and [local](#) health officials is strongly encouraged so that timely and accurate information can guide appropriate responses in each location.

^Telemedicine must address the patient's medical needs and correspond to federal and state requirements [avma.org/Telemedicine](https://www.avma.org/Telemedicine)
